Hitchcock Independent School District
NCLB Highly Qualified Teacher
Improvement Plan
2006 – 2007
November 17, 2006

Hitchcock Independent School District has one core subject teacher at Hitchcock High School that does not meet the federal No Child Left Behind Highly Qualified requirements.

In order to assist this teacher in becoming highly qualified, Hitchcock Independent School District will seek out study courses for the PPR and Science 8-12 certification exams and pay the registration cost for the teacher to attend these sessions. The District will also seek out study courses for the oral proficiency

In addition, Hitchcock ISD will reimburse the teacher for the cost of all required examinations after she provides proof of having passed the tests. The District will also reimburse the teacher for costs associated with obtaining certifications and endorsements.
